

MODULE SUSTAINABILITY MARKETING COMPETENCES

Unit 6 | Activity 2 Set up goals & measure points

DESCRIPTION

For every plan to work, you also need to set up goals, milestones, and KPIs (Key Performance Indicators). Additionally, you should focus on the value it generates and the resources required to achieve it. This unit will strengthen your understanding of the purposes of your marketing activities and what you can achieve from them.

This project has been funded with support from the European Commission. This publication reflects the views only of the ACORN consortium, and the Commission or Agence Erasmus+ France/Education Formation - 2E2F cannot be held responsible for any use which may be made of the information contained therein. Project number: 2021-1-FR01-KA220-ADU-000033693

THE ACTIVITY

Create a Gantt chart using the information from the previous unit.

ACORN PROJECT PLAN		Activities/Task	Responsibility	Status	Comments	Week1	Week2	Week3	Week4	Week5	Week6
	а	Activity A	Person A								
	a.a	Task 1 to A	Person A								
	a.b	Task 2 to A	Person B								
	b	Activity B	Person A								
	b.a	Task 1 to B	Person B								
	b.b	Task 2 to B	Person C								
]	b.c	Task 3 to B	Person B								
Phase 1	b.d	Task 4 to B	Person C								

Gather your team and discuss the following:

- Reflect on what tasks should come first and determine the timeframe.
- Prioritise your work and add it to the template.
- Are there any events you need to be aware of and plan around?

Put everything into the Gantt chart and start executing.

Project number: 2021-1-FR01-KA220-ADU-000033693

THE THEORY

Put your plan into a visual calendar to track the tasks and their respective deadlines.

In order for a marketing strategy to be effective, it is important to organise tasks based on their timing and location.

That's where a Gantt chart can assist you:

Gantt chart defining :

A Gantt chart is a bar chart that illustrates a project schedule. It was designed and popularised by Henry Gantt around the years 1910–1915. Modern Gantt charts also show the dependency relationships between activities and the current schedule status. Source: Wikipedia

So, in other words:

Gantt charts help in scheduling and prioritising all the activities and tasks in your plan.

It is a simple and efficient tool that can be customised to showcase and indicate all the necessary information.

Example:

Example.			-								
ACORN PROJECT											
PLAN		Activities/Task	Responsibility	Status	Comments	Week1	Week2	Week3	Week4	Week5	Week6
	а	Activity A	Person A								
	a.a	Task 1 to A	Person A								
	a.b	Task 2 to A	Person B								
	b	Activity B	Person A								
	b.a	Task 1 to B	Person B								
	b.b	Task 2 to B	Person C								
	b.c	Task 3 to B	Person B								
Phase 1	b.d	Task 4 to B	Person C
